6. Cut the **Summer Sausage** into thick slices and the **Sweetheart Ham** into thin slices.

Assembly Directions:

1. Place the **cheddar chunks** inside a square of their original wax rind, creating two overlapping frames filled with the chunks in the upper left corner of the board. Shingle the slices of **Durrus** just below, along the left edge of the board. Place the **Cashel Blue** wedge and crumbles in the top center of the board, and arrange the **Vermatcha** slices in a semi-circle around a jar or dish in the bottom right corner of the board.
2. Drape the **Sweetheart Ham** slices between the cheddar and Cashel Blue, extending from the top to the bottom of the board. Fill the remaining space in the Vermatcha semi-circle with slices of the **Summer Sausage**.
3. Pile the **crackers** in the empty top right corner of the board.
4. Fill the remaining space in the middle of the board with green, white, and orange **veggies**—we like using spinach leaves, carrots, and turnips.
5. Fill the jar or dish with the **chutney**, and sprinkle **cashews** around the board for a touch of color.
